Sticky notes

Sticky notes are very simple and economic advertising products, an ideal solution whenever we need to write down something important. They help us get better organized both at work and in personal life. Custom printed self-adhesive notes are both excellent advertising media and practical and economic work tools.

Sticky notes sets

Generally small in size, but visually attractive sets of notes and index tabs are advertising products which offer a whole range of personalisation options.

They are available with both soft and hard cover, in boxes with paper and PET index tabs and with a number of additional accessories, like a pencil or elastic band closure.

Amid this large category of products, there is a set of hardcovered self-adhesive notes with the catalogue number PM100. This is our absolute bestseller. PM100 can be made in many different versions, using a variety of components and finishing materials.

Notes sets

The notes sets usually consist of one bigger notebook and a number of smaller notepads, plus a set of page flags.

The product is equally useful in daily office work and during training events and conferences. Notes sets can be offered with glued edges, with a wire-o binding or can be attached to the cover with a clip, which makes it possible to add and take out the sheets with notes at any time.

The hardcover used in the majority of products from this group offers extensive personalization opportunities, but also protects the content against damage and adds to the visual attractiveness of the product.

Page flags

Page flags are very practical gadgets, indispensable in every office. Our offer includes both self-adhesive paper and plastic page flags, available with covers or in boxes.

Worth noting are self-adhesive paper tabs which can be made of mass tinted paper or custom printed white paper. Z-type index tabs offered in plastic dispensers make it easy to pick the tabs one by one.

Eco-friendly products

This is a category of advertising products with a common underlying message which is respect for the natural environment. Care for the environment is something that brings together manufacturers and users who share the common awareness of the need to protect natural resources.

The components and materials used in their production process come from recycling. The characteristic appearance of the products highlights their natural origin and enhances the advertising message.
